**Helping Against Modern Slavery:** The "Safe Car Wash App" has been launched to empower members of the public to report suspected incidences of forced labour and modern slavery. Users open the app, free on Apple and Android devices, while at a car wash to pinpoint the exact GPS location. The app then invites them to answer a series of questions including: Do workers have suitable protective clothing? Are there signs they are living on site? Do workers seem fearful? They are invited to look out for car washes where motorists pay less than £6.70, where only the manager receives payment and where no receipt is offered. If the answers suggest a high possibility of modern slavery, users will be directed to the Modern Slavery Helpline. The anonymous data will also be shared with the National Crime Agency and the Gangmasters and Labour Abuse Authority (GLAA).
